I hate my job I think its driving me mad
I hate my job I think its driving me mad mad mad mad
I hate my work because its never done
Im on overtime I wanna hurt someone

I walk past the homeless people on the way to my job
a pitiful pocketful of money is my wage
dont fuck with me and I wont stomp on you
dont ask me if I can spare some change

spare some change?!

I got a check but the state took a piece of the pie
I got a check but the feds took some dont know why
just got check out but I cant pay the rent
just got paid but its already spent
