

Goddess of Filth and Plague

Abscess

Crypt ascension, from below she rots
Impure procreation, hell in breeding form
Eyes of blackest depths beyond all hope and fear
Altar of abysmal drug addiction

Goddess of filth and plague
Seduced by death, disease awaits

Inhale the perfume of victimized souls
Each carcass a trophy to the coffin's teeth
Goddess of the darkest minds beyond repent
Apocalyptic chasms filled with pus and skulls

Goddess of filth and plague
Seduced by death, disease awaits

Humanity laid waste
Every mind bleeds black
Her teeth appeased with flesh
Madness in her breath

Fornication rituals for human whores
Spawning bloody spasms, flames burning high
World devoured, putrid lust unfolds
Menstrual atrocities, consumed by carnal rapture

Goddess of filth and plague
Seduced by death, disease awaits
