Lust For The Grave

Lust for the grave

All I see is black and torturous Darkness take me Brain is rotten, sewage in my blood Darkness free me Alcohol and drugs, obscurity Call the reaper Only in the coffin I'll be free Death my keeper Moving toward the unlight, fate is sealed Doom is waiting Total darkness soon to be revealed Fill the casket To the graveyard, never coming back Feed the maggots

Make me lust for death Show me the world And I'll take my last breath Make me lust for death Take me to the end It's all tha's left Abscess
