

How can you make it
Look so easy
The way you movin'
Is making me crazy

And I need it
I want it bad babe

I cannot watch you
Without interference
I need pinch myself so I'm not dreaming

But I need it
I want it bad babe

There I go
Leaving this old town
I'll be back
And I'll stick around, until
A kiss
One for the road
Goodbye, my sweet friend
I'm gonna see you soon

I cannot say it

It's never easy
To put into words what
We are feeling

But I need it
I want it bad babe

I ask for nothing
And I got everything
Imagination
Couldn't take me then

But I need it
I want it bad babe

There I go
Leaving this old town
I'll be back
And I'll stick around, until
A kiss
One for the road
Goodbye, my sweet friend
I'm gonna see you soon
