

## Soul Of The Beast

### Abused Majesty

he acquired thousand names  
each sequential dictated by fear  
thousand times he burnt on stake  
to arise from the ashes  
stronger then ever before

the Beast  
everyone wanted to kill him  
he wasn't human  
his throne  
surrounded by stony ring of time  
rolled in by the flames  
from the heart of  
Mother Earth  
serpents guarded gates of his kingdom  
to fulfill the curse  
the tree of life  
was it's heart  
ravens  
every of his thoughts  
whereas thoughts were confined  
like birds in a cage  
in a helmet which  
couldn't be removed  
being born in it

(I will make their hearts hard  
so they will never know the real name  
let free volition be a blessing for those,  
who will acquire the Knowledge  
I will make them keepers of all keys.)

cursed let be those,  
for whom they are weakness  
stones in their eyes  
are bigger then Mother Earth  
and from their lips  
runs a sea of blood
