

Don't Trust That Girl

Ace Troubleshooter

You know that kind of girl
That makes your heart beat all fast?
You know that kind of love
That you know will last?
I knew that kind of girl
I knew that kind of love
But then she broke it off
When I was so sure of her

Don't trust that girl
She's up to no good
She'll mess with you like no one should
Don't trust that girl
She's up to no good
She'll mess with you like no one should

Empty promises thrown into the wind
Mirage vanishes, never to see again
Hey fellas, be you ware
Don't want to end up like me
Another victim of her stupid female schemes

Don't trust that girl
She's up to no good
She'll mess with you like no one should
Don't trust that girl
She's up to no good
She'll mess with you like no one should

So now the time moves on
With feelings come and gone
And Christ is the one constant
I can lean on
And so I am left here
Feeling like a schmuck
With one thought on my mind:
???.

Don't trust that girl
She's up to no good
She'll mess with you like no one should
