

Don't Drink Evil Things

Acid Drinkers

They all say:
Don't drink evil things'
Wonder what they mean
They tell me:
Don't drink evil things'
Have they all been clean?

They all say:
Don't drink evil things'
Don't you swim upstream'
But I know what shit current brings
I'd lose my self-esteem.

Evil ones never go to hell
Yeah, it's time to fill the glass
We may fly, I may break the spell
Or fall on my ass.

They all say:
Turn this shit around,
Don't drink evil things'
Change the world? It will drag you down
Break your fuckin' wings.

Evil ones never go to hell
Yeah, it's time to fill the glass
We may fly, I may break the spell
Or fall on my ass.

I sure know where they're coming from
Crawling on lost ground
Where reason or words of wisdom
Could never be found.

Don't drink evil things'
They all say :
You know that's insane'
But they're all pouring me new drinks
Fuckin' with my brain.

Evil ones never go to hell
Yeah, it's time to fill the glass
We may fly, I may break the spell...
