

Come Josephine

Acid House Kings

Come Josephine
Come, come on right in
He said and took my hand in the sun and
The summer was here to stay
Come Josephine
Come, come on right in
He was my sweetest thing and those arms were
Mine too keep

How did all the things
And why did all the things go wrong?
I wish of winter
How did all the things
Oh, why did all the things go wrong?
I wish that winter would come

Come Josephine
Come, come on right in
I promise of a kiss, I promise of a
Good life to come
Come Josephine
Come, come on right in
I know intentions were great but in-
Tentions ain't enough

How did all the things
And why did all the things go wrong?
I wish of winter
How did all the things
Oh, why did all the things go wrong?
I wish that winter would come
