

Keep Your Love

Acid House Kings

I've lost my bag on the train
(lost his bag, now what a shame)
you've lost your mind all the same
(lost her mind, now she's insane)

what can I do to get out
understand my doubt
(do I have to show?)

you can keep your love
you can keep your love
you can keep your love away from me
you can keep your love (2x)

we've been around to confess
(cost me twice now everyday)
and I don't know what to say
(can't you see that I am gay?)

you've stucked to me like glue
why won't you realize we're thru
(because I don't love you)
