This Love Is All We Need

Acid House Kings

It seems so much better now The skies all turned blue from grey Everything I thought I missed Just slipped away This feeling will stay

Be kind, stay gentle This love is all we need here Now we're home and all I really wanna Is stay another day with you

Monday mornings can bring terrible news So we slept til noon Tuesday evenings there's not much to do So we go away

Be kind, stay gentle This love is all we need here Now we're home and all I really wanna Is stay another day with you
