

# Dreamers Disease

Across Five Aprils

Tell me I'm scared.  
Tell me you're brave.  
Don't care at all, 'cause I'm the one you'll never save

We're building walls higher and higher.  
I sleep in ice, that's how you know who we are.

Dreamers...Dreamers...  
We've got the Dreamers Disease.  
Dreamers...Dreamers...

I wish you could see yourself.  
You're like a fucking disease.  
Lay there like that's your problem.  
You need to get off your knees.

All this time you think forgiveness.  
That's not a real thing.  
Open up your eyes some time, that's what I  
think of your King.

Call us the weak.  
Call us the strong.  
Call in the doctor.  
Just never say that we're wrong.

Go kill the noise.  
Go hug the bar.  
One finger high, you'll always  
know that we are.

Dreamers...Dreamers...  
We've got the Dreamers Disease.  
Dreamers...Dreamers...

I wish you could see yourself.  
You're like a fucking disease.  
Lay there like that's your problem.  
You need to get off your knees.

All this time you think forgiveness.  
That's not a real thing.  
Open up your eyes some time, that's  
what I think of your King.  
We've got the Dreamers Disease.

Burn, burn it down.  
Burn it down with me
