

# How The Mighty Have Fallen

Adam Cohen

Look how the mighty have fallen  
Down from the mountain so high  
They got you walking in shackles  
Wiping the spit from your eye  
How you gonna do it  
How you gonna beat it  
How you gonna change their mind  
Without a soul on your side  
Can you say it for me now  
You're never too rich  
Yo're never too strong  
You're never too right  
To ever be wrong  
You're never too high  
Look at you now  
You're meeting everyone  
That you climed over on your way down  
Look at how the mighty fall  
Now that the statue has toppled  
The word is all over town  
The mob has already gathered  
To pick the jewels from the crown  
How you gonna do it  
How you gonna fix it  
How you gonna stem the tide  
Without a soul on your side  
You're never too rich  
Yo're never too strong  
You're never too right  
To ever be wrong  
You're never too high  
Look at you now  
You're meeting everyone  
That you climed over on your way down  
Look at how the mighty fall  
It's no comfort to you now  
But you're not alone  
It's human nature to devour  
Getting drunk on all the power of the throne  
You're never too rich  
Yo're never too strong  
You're never too right  
To ever be wrong  
You're never too high  
Look at you now  
You're meeting everyone  
That you climed over on your way down  
Look at how the mighty fall
