

Trying To Write A Love Song

Adam Hood

We've be doing everythin' the hard way
Ain't gettin' nothin' but a heartache
Girl, I know what I'm talkin' bout
When I tell you everythin' is gonna work out

C'mon baby, I'm tryna write a love song
I'm gonna need a lil help from you
So slide ova, closer to where you belong
Gimme somethin' that I can use

That ain't a dress, that's an invitation
It's providing a lotta inspiration
When I get ya in my arms tonight
I promise everythin' is gonna be alright

C'mon baby, I'm tryna write a love song
I'm gonna need a lil help from you
So slide ova, closer to where you belong
Gimme somethin' that I can use
I'm tryna write a love song for you

I promise everything is gonna be alright

C'mon baby, I'm tryna write a love song
I'm gonna need a lil help from you
So slide ova, closer to where you belong
Gimme somethin' that I can use
You're the one I wanna sing it to
I'm tryna write a love song for you
I'm tryna write a love song
C'mon baby
