

# Everyone Can Help Someone

Adam Pascal

It's been too many hopeless nights  
It's time to stand up  
It's time to fight for what is right  
It's time to join together  
Try together  
Stronger than ever  
And we can make a change

Everyone can help someone  
Find a better night  
Than what's set out  
Wishing for something more  
That promises a new tomorrow  
For us all

We take for granted  
Without a thought  
All the chances,  
All the choices in our hearts  
It's now or never  
Always remember  
It can last forever  
And we can make a change

Everyone can help someone  
Find a better life

Than what's set out  
Wishing for something more  
That promises a new tomorrow  
For us all

It's time to wipe away all those fallen tears  
It's time to stand between all the doubt and fear  
It's time to find a way  
And we can make that change

Everyone can help someone  
Find a better life  
Than what's set out  
Wishing for something more  
That promises a new tomorrow  
For us all  
For us all  
For us all  
For us all  
(For us all 4x)

There's been too many hopeless nights  
It's time to stand up  
It's time to fight for what is right
