

Guilt

Adamantra

Unspoken misery
I carry in my heart
When I let you go
I am alone here
No place for me to be

I dwell in solitude
denying it is true
I repent in the pain
I put you thru
Refusing your need
to be loved

Kill the pain
Make it go away
Let it fade away

I made you like am
and made you lose your soul
I live without a home
no tomorrow
And fear is here to stay

A part of me has died
It died with you
my love
And with a kiss of death
I strike you down
I'm holding you
in my arms

Kill the pain
Let it fade away
Make it go away
I'm letting go the hurt I caused you
Let it fade away

I died with you my love...
