

Shine On

Adelitas Way

Shine on, let your love shine bright
Leave a light on

When you're dying in darkness with your demons
The medications got you beaten
When you're looking for hope and you're lost in the deep end
You find a reason to keep breathing

God said let there be light
Let's take over the night

Shine on, let your love shine bright
Leave a light on and shine, shine
Shine on, bring you back to life
So we fight on and shine, shine
Shine

We were never meant to live in the shadows
The isolation has you hollowed

When you're counting the days and your time is borrowed
It's time to change the path you follow

God said let there be light
Let's take over the night

Shine on, let your love shine bright
Leave a light on and shine, shine
Shine on, bring you back to life
So we fight on and shine, shine
Shine

Shine on, let your love shine bright
Leave a light on
And shine, shine

Shine on (Shine on)
Bring you back to life
So we fight on and shine, shine
Shine
Shine
