

## Stay

Adelitas Way

I've been searching for somebody like you for so long  
Sexy smart and so beautiful with a soul so strong  
The way you make me feel is this even real  
I'll love you like I never been hurt

Won't you stay with me tonight  
I want you to stay  
Won't you stay with me I feel so alive  
I want you to stay  
I'm not gonna change I won't walk away  
I can keep your heart safe  
Won't you stay with me tonight

A twisted love until the sun comes up  
I can't get enough  
It feels like heaven when we're waking up  
I know that this is love  
And the way it feels now I know it's real  
You'll love me like you never been hurt

Won't you stay with me tonight  
I want you to stay  
Won't you stay with me I feel so alive  
I want you to stay  
I'm not gonna change I won't walk away  
I can keep your heart safe  
Won't you stay with me tonight

I want you to stay  
Won't you stay

Won't you stay with me  
Stay with me tonight  
I want you to stay  
Won't you stay with me I feel so alive  
I feel alive  
I'm not gonna change I won't walk away  
I can keep your heart safe  
Won't you stay with me tonight

Won't you stay  
I want you to stay  
I want you to stay
