Hail to Majesty

Ador Dorath

Hail to Majesty

Speak to us in a great movement of the sea

Give us power

Speak to us in a murmur

Give us your wisdom

High majesty who is mirrored in the depths

Deep majesty who rises to the heights

Lead us to immortality

Oh constancy and motion Day swathed in Night Darkness veiled in Light

Your breath gives and takes back form of everything You who fill the lives of the majestic And awake the shadown of the night You who fly on the wings of winds Neverending motion in eternal constancy

Oh you elevated in a changing empire of shadows
Reflections and pictures
Let a shadow become a body Let spirit become soul
Let dream become thought
