

# I Can't Love You

Adore Delano

Baby you're a work of art  
A shooting star  
Lighting up the darkness  
So lucky that we found this, yeah  
You know you've got me losing sleep  
I can't believe the beauty of this moment  
It's all I've ever wanted  
But I can't love you

(2x):

I can't love you today  
I can't love you tomorrow  
I can't love you anyway  
I can't love you anyhow  
I can't love you, love you

I love the way you touch my lips  
You live to kiss  
The freckles on my shoulder  
So I can pull you closer, yeah  
Some people search all their lives for what we've got  
A fairytale in motion  
With hearts deep as the ocean  
But I can't love you

(2x):

I can't love you today  
I can't love you tomorrow  
I can't love you anyway  
I can't love you anyhow  
I can't love you, love you

Wrote a chapter full of us  
Just to burn it up  
I can't love you, love you [x2]  
Tied to bed with bright green eyes  
Just to come undone  
But I can't love you

(2x):

I can't love you today  
I can't love you tomorrow  
I can't love you anyway  
I can't love you anyhow  
I can't love you, love you
