Out of the Blue

Adore Delano

Last call on the boulevard City of love and broken hearts Crazy, beautiful, bizarre Three words, everything you are

If you wanna light my cigarette I might let you have a hit I'm not into playing hard to get We can have a night we won't regret

You are the perfect stranger (Never saw you coming, never saw you coming) I need some bad behaviour (Want some dizzy lovin', want some dizzy lovin')

Out of the blue There was you Out of the blue Just a shoe La-la-la-la-la La-la-la-la-la La-la-la-la-la

Come in, don't turn off the lights You're my toy, just for the night You can make me feel alive So wrong, but it feels so right

Pick a name, I won't remember it It's a shame, but you'll get over it Gotta catch my flight at 10 to 6 Never say "bye" to just a fix

You are the perfect stranger (Never saw you coming, never saw you coming) I need some bad behaviour (Want some dizzy lovin', want some dizzy lovin')

Out of the blue There was you Out of the blue Just a shoe La-la-la-la-la La-la-la-la-la La-la-la-la-la La-la-la-la-la All I see is blue All I want is you All I see is blue All I want is you All I see is blue Baby, all I want is you All I see is blue All I want is you Out of blue

(There was you, there was you) There was you (There was you, there was you) You, you Out of the blue There was you Out of the blue Just a shoe La-la-la-la-la La-la-la-la-la La-la-la-la-la
