

## Garden Of Sin

Aeon

You are the chosen inside you I dwell  
Enter your body I'll guide you through hell  
Open for evil your soul is possessed  
The mark of my presence I have on your flesh  
You are now ready for sin, open your gates invite me in

Forsaken by god in my violence you are  
Pounded by evil in the garden of sin  
Eat of my forbidden fruit, swallow the juices all is for you

I am your god here in the garden of lust  
Temptation is glowing in the garden of flesh  
Promises broken in the garden of trust  
Unfaithful unclean in my garden of sin

Once you have entered the garden of sin  
Explored all its pleasures and secrets within  
You cant go back to the life you once knew  
The garden of sin is calling for you  
Open for sinners to get one last fix  
Feeding your hunger with Christ crucifix

I am your god here in the garden of lust  
Temptation is flowing in the garden of flesh  
Promises broken in the garden of trust  
Unfaithful unclean in my garden of sin

You are the chosen inside you I dwell  
Enter your body I'll guide you through hell  
Open for evil your soul is possessed  
The mark of my presence I have on your flesh  
You are now ready for sin, spread your legs and invite me in

I am your God here in the garden of lust  
Temptation is flowing in the garden of flesh  
Promises broken in the garden of trust  
Unfaithful unclean in my garden of sin
