

When love
Leads to addiction
And trust
Eats you alive
When blood
Makes you a victim
Oh
Just reach out for me
Just reach out for me
Okay?

When soil
Seeds your sedition
And gods
Divide the line
We toil
For our traditions
Oh
It's insanity
It's insanity
Okay?

Why do we waste these moments?
So precious and so brief
Soon this will all be over
One life is all we lead

Why do we waste these moments?
So precious and so brief
Soon this will all be over
One life is all we lead

When sin
Creates a coffin
And guilt
Poisons the mind
We sit
Until we're rotten
Oh
That's not life to me
That's not life to me
Okay?

Why do we waste these moments?
So precious and so brief
Soon this will all be over
One life is all we lead

One life is all we lead
One life is all we lead
One life is all we lead

One life is all we lead

One life
One shot
One life
One shot
One life
One shot
One life
One shot

Why do we waste these moments?
So precious and so brief
Soon this will all be over
One life is all we lead

One life is all we lead
One life is all we lead
One life is all we lead
One life is all we lead
