

## Ruin and Resurrect

Aeternus

There breeds an ancient pride  
Like clusters of blue eyes staring  
Spitting and cursing and burning  
Eating the face of God in one gulp

It wasn't carved in stone  
Yet immortalized in mind  
With forever burning eyes  
And a need to conquer yet again

Could you see those teeth?  
Grinding your flesh like the poison in a vein  
Face the fury, face the ruin  
Drown in the darkest of miseries

In a rabid fury with running white saliva  
Dripping death from the hole called mouth  
Resurrected for the Semper Aeternus  
Dead for the worlds without soul

Rise and grasp the horrid laughter's  
Rise and fall forever and for all  
Ruin yourself with the decadence within
