

# Far Beyond The Distant Skies

Aethra

If I could fly, will you fly with me, riding forever?  
Telling and dreaming with tales of stars,  
If I'm gonna die, will you die with me been forever?  
Finding the best way to heavens gate.

Cause I see your face every night and day,  
And always you bring out the best part of me

Far Beyond the distant skies,  
I will follow you behind, far beyond the distant skies.  
Far Beyond the distant skies,  
I will follow you behind, far beyond the distant skies.

If could be free, will you be with me, laying together?

Staying for new days and enchanted ages.  
If I'm gonna wait, will you wait for me, when time is over?  
Finding the best way to anywhere.

Cause I see your face every night and day,  
And always you bring out the best part of me

Far Beyond the distant skies,  
I will follow you behind, far beyond the distant skies.  
Far Beyond the distant skies,  
I will follow you behind, far beyond the distant skies.
