

# Endlessly, She Said

AFI

Walked into our world and made horrible sounds.  
I can still hear them today  
(Strangely they seem)  
Beautiful now  
Though they outlast, my love

Still each time I always meant  
Every word, everyone  
Though in time they finally bent  
Every word, everyone, every word

"I will wait for you," she said, endlessly.  
"I will wait for you," so spoke, Misery

I returned to you but found  
My empty home  
The radio told me to stay  
I sang along  
You will outlast, my love

Still each time I always meant  
Every word, everyone  
Though in time they finally bent  
Every word, everyone, every word

"I will wait for you," she said, endlessly.  
"I will wait for you," so spoke, Misery (Oh)

I have been waiting for you  
Biting as you taught me to  
I have come to relieve you of life and love

I will wait for you  
I will wait for you  
I will wait for you  
I will wait  
I will wait

"I will wait for you," (I will wait) she said, endlessly.  
"I will wait for you," (I will wait) so spoke, Misery  
"I will wait for you," (wait for you) she said, endlessly.  
"I will wait for you," so spoke.  
So spoke, Misery.

I will bite straight through  
As I wait for you, dear  
Endlessly
