

## It Was Mine

AFI

Don't move  
Don't do anything  
What we captured got away,  
slipped from us

Don't speak, don't  
don't say anything,  
they've been recording all we say  
for years now.

You won't see them right away  
but you'll hear them singing.  
Hold me closely now but don't,  
don't say anything.  
They've come to take me away  
and won't leave until I'm gone

Don't feel  
Don't love anything  
Love attracts all those who taint, the cherished.

Don't try to  
to change anything  
Nothing pure can every stay

They'll say  
relax, you'll be fine.

All we love goes away

They'll take  
all you let them find..  
it was mine.
