

What U R 2 Me

After 7

A thousand words for why I love you
Girl, I could go on all night telling you why it'll be true
Let's stretch out on my leather couch under our 18 by 22
I cannot try to explain it
Baby how can say it to you

Girl you're the rest of my life and all
And you come whenever I call
Girl I just wanna say it
I thank you from the bottom of my heart
That's why

Baby, what you are to me
No one else can be
Ooh, and I think I'm in love baby
Ooh ooh, baby just can't stop this feelin'
From taking over and over
And I know I can't stop it girl, you're mine
You're mine, yeah

I can understand how you want your space
Give it all some time to let it soak into your mind
Searching all my life for a woman like you
Gonna do exactly what my precious heart tells me to

Oh girl, you're the rest of my life and all
And you come whenever I call, girl
And baby I just wanna say it
I thank you from the bottom of my heart

Ooh, ooh, baby, what you are to me
No one else can be
Ooh, and I think I'm in love baby
Ooh ooh, baby just can't stop this feelin'
From taking over and over
And I know I can't stop it girl, you're mine

I know that you've been hurt before
By men who swear it all
But I just wanna say
Wanna take it day by day
I'm gonna pick you up whenever you
Pick you up whenever you fall

Baby, what you are to me
No one else can be
Ooh, and I think I'm in love baby
Ooh ooh, baby just can't stop this feelin'
From taking over and over
And I know I can't stop it girl, you're mine
You're mine, yeah
