

24 Hour Roadside Resistance

Against All Authority

We're under attack
A knife in the back from you
The sirens wail and I'm on my way
Tied to the world with these four strings I play
And they're always out of tune
Gotta list of your needs and wants
24 hour roadside resistance
Is all I got for you
Line 'em up and we'll knock 'em down
All I got is this raging sound
We make and you take what's not bolted down
Just one match will burn this town
And you'd look so pretty with your head on fire
You brought me down but Joe's amplifier
Cut through my body and I'm feeling higher
Association of thieves and liars
Resist- We're under attack
A knife in the back from you
We make our home wherever we lay
I tie my hands with these four strings I play
And I break one every other day
Get your guitar cord and hang 'em high -ALRIGHT!
Like a pinata we'll smash 'em for what's inside
Then I'll be satisfied
You sent us a letter. We wrote you a song
The structure's weak but the message is strong
Waiting in the shadows for you to respond
You lit the fuse. We hold the bomb.
