

Rooftop tonight we are the skyline  
Collecting shooting stars wishes in jar  
All the hearts wide-awake and lonely  
Dream of where we are

Run so fast  
The wind can't catch us  
It's at our back  
The sun is falling  
Things don't last  
When you're young cause  
All you get is  
Just one chance to

Break away to beat the odds  
All along it's been a race against the clock  
Time won't wait were gonna leave  
Somewhere we'll find infinity  
We'll find infinity

Breaking hearts just for the hell of it  
Anything so we can feel dangerous  
Everywhere we go we leave shadows from the past  
We won't die young but we'll live fast

Run so fast  
The wind can't catch us  
It's at our back  
The sun is falling  
Things don't last  
When you're young cause  
All you get is  
Just one chance to

Break away to beat the odds  
All along it's been a race against the clock  
Time won't wait were gonna leave  
Somewhere we'll find infinity  
Find infinity  
Infinity

Break away to beat the odds  
All along it's been a race against the clock  
Time won't wait were gonna leave  
Somewhere we'll find infinity  
Break away to beat the odds  
All along it's been a race against the clock  
Time won't wait were gonna leave  
Somewhere we'll find infinity  
Somewhere we'll find infinity  
We'll find infinity
