

This White Mountain on Which You Will Die

Agalloch

AC/DC

Flick Of The Switch

This House Is On Fire

Got what she want

Got what she want, hitting one of three

A little tongue in cheek, ha, positionality

She bring on the flames, and it's burning and burning

My body's aching, tossing and turning

CHORUS:

House is on fire

House is on fire

This house is on fire

And the flame is gonna burn you down

She got me running for shelter

Needin' quarantine

She got me red hot and wired

Call an emergency

She bring on the flames, and it's burning and burning

My body's aching, tossing and turning

CHORUS

You got me burning and burning

You got me tossing and turning
