

# No War Fuck You

**Agnostic Front**

I'm so sick of these fucking wars  
Rich get richer, poor get poorer  
Nothing solved, nothing's changed  
Now there's fucking hell to pay

Corporate government  
Poisoned by greed  
Get the fuck out

We're all victims in their game  
Destroy the land, make 'em change  
Send the innocent off to war  
Don't even know what they're fighting for

[Chorus]

No war, fuck you!
