## Victim in Pain

## **Agnostic Front**

People say that I'm insane A victim of society just in pain Society's rules have made me cruel I'm just the opposite, ain't no fool The way I act or way I dress Doesn't make me strong or make me best Soon they'll find my reasons why I'm open minded and not blind

But why am I going insane Why am I the one to blame

Open your eyes, don't tell me lies I'll be the one to live and rise I'll think for myself and I'm sure to find That society's rules won't change my mind
