

We Want the Truth

Agnostic Front

You're telling lies
Right to our face
Include us in
Your selfish games
But we won't take it anymore
We want the truth!

Obsessed with power
Akin to greed
You cannot put a value on
What you've taken from me

You've tried to say
We're to blame
For everything
You can't change
The definition of hypocrisy
And we caught you
In your tracks

You've take all our rights away
I'll battle 'til my dying day
Exposing you for what you are
Dishonest, fake

We've come too far
To watch you throw it away
If it affected your life
Would your decisions
Be the same?

You've tried to say
We're to blame
For everything
You can't change
The definition of hypocrisy
We'll stop you in your tracks

We want the truth!
We want justice!
Redemption for your mistakes
We want freedom! Satisfaction!
The preservation of our liberty
Now is the time to take action
