

All Alone

Agonizer

Didn't know that you waited me
I was playing with those people
I call friends
'cause they feed on me

All alone
Surrounded by these strangers
Only one
That I really knew is gone

I always hoped that you hated me
So it would not hurt you
When I'm gone
When there's nothing left

I'm wrong person to idol
Just a piece of shit like the ones
That are with me
And I can't change

All alone
Surrounded by these strangers
Only one
That I really knew is gone

You're the one that I should have loved

You're the one that I should have known
