

Eternal Darkness

Agonoize

Die Zeit ist gekommen
Uns unseren Häschern zu widersetzen
Und damit die Epoche
Der ewigen Finsternis zu beginnen

(Und damit die Epoche
Der ewigen Finsternis zu beginnen)

What shall we do?
I feel like possessed
God's creation
I thought we were blessed

It's like a curse
A spreading disease
God no longer cares
So much for peace

Run for your lives
It's Hell on Earth
Run for your lives
It couldn't get worse

Eye for an eye
Blood for blood
There is no escape
No way to stop

Eternal darkness
Eternal darkness

What shall we do?
I feel like possessed
God's creation
I thought we were blessed

It's like a curse
A spreading disease
God no longer cares
So much for peace

Eternal darkness
It's like a curse
Eternal darkness
God no longer cares

Die Zeit ist gekommen
Uns unseren Häschern zu widersetzen
Angst wird die Menschen gefügig machen
Ihre Schreckenswaffen werden uns helfen
Den Himmel zu verdunkeln

Now light turns to dark
Our world is falling apart
No more should I see
Eternal darkness surrounding me

Now light turns to dark
Our world is falling apart
No more should I see
Eternal darkness surrounding me

Eternal darkness surrounding me
Eternal darkness surrounding me

Save your prayers
God is not here with us now
There is only the darkness here
And your death
God is not here with us now
God is not here with us now

God failed
We lose
But this time
There's no excuse

Darkness
Is all around
Thank God
We're Earth-bound

Evil comes
We're on the run
'Cause we're nothing
But human scum

Evil comes
We're on the run
'Cause we're nothing
But human scum

Now light turns to dark
Our world is falling apart
No more should I see
Eternal darkness surrounding me

Now light turns to dark
Our world is falling apart
No more should I see
Eternal darkness surrounding me

Eternal darkness surrounding me
Eternal darkness surrounding me

God is not here with us now
