We live in fearless times Revolution, we sing We live in dying days Evolution, we sing

We all go that insane
We all go that insane
Sink the knife into the spine
The human disease
We all go that insane
We all go that insane
Sink the knife into the spine
The human soul desires your belief

We live in a world of hate Separate, we sing We live in dying days Evolution, we sing

We all go that insane
We all go that insane
Sink the knife into the spine
The human disease
We all go that insane
We all go that insane
Sink the knife into the spine
The human soul desires your belief

I'll sing you die be my perfect muse
My valentine alive
I'll sing you dare make the speakers bleed
In dying days we just don't care

We live in dying days Revolution, yeah! We sing!
