Simple Fix

Aimee Mann

Here we go again, around and round Here we go again, around and round Well baby's passing for adults Who voted up the catapults And can't believe the end results So here we go again

Here we go again, it's obvious
Here we go again, the two of us
We've just become our worst mistakes
The rattles off two rattlesnakes
The antidote that no one takes
So here we go again

But let's call a spade a spade
I'm going nowhere
I'm stuck in this hole, afraid to make a move
So once more around the track, another lap
And I think I can get it back, to where we prove:

There's a simple fix for our mess It's a simple fix for our mess

Here we go again, back to the well Here we go although we both can tell We're just campaigning for the win No prizes of adrenaline We acted out, so it stays in So here we go again

But let's call a spade a spade
I'm going nowhere
I'm stuck in this hole, afraid to make a move
So once more around the track, another lap
And I think I can get it back, to where we prove:

There's a simple fix for our mess It's a simple fix for our mess
