

Blood in the Water

Airbourne

Better watch where you're jumpin'
Don't make a splash
Coz you're dealing with a killer
Straight out of the past
I'm a master predator
Always on the move
I got a taste for flesh
I got a taste for you

Blood, blood in the water
Blood, blood in the water
Blood, blood in the water
Blood

I'm comin' beneath ya
Straight out of the dark
With my pearly white razorblades
Gonna rip you apart
Better get your legs kickin'
You're a long way from shore
Getting closer and closer
I'm hungry for more

Blood, blood in the water
Blood, blood in the water
Blood, blood in the water
I want your blood

I got a taste for ya
You got nowhere to go
My eyes are rollin' back
You're gonna need a bigger boat

Blood, blood in the water
Blood, blood in the water
Blood, blood in the water
Blood, blood in the water
I want your blood, blood in the water
Blood in the water...
I need your...
I want your blood in the water...
I'll getcha all...
I need some iron in my diet... blood!
