

Life Is Just

AJ McLean

What if we did what we were told
What if we grew up and never old
What if the devil drove a ford
And if jesus lived next door
What if the glass was half full

So many reasons to try
So many reasons why

Life is good
Life is great
But it's hell in some ways
All the hate
All the love
It's in all of us

We just need to trust
Life is just...

What if we all fell asleep
What if the strong became the weak
What if heaven fell down
Would it even make a sound
Would it even matter at all

So many reasons to try
So many reasons why

Life is good
Life is great
But it's hell in someways
All the hate
All the love
It's in all of us
We just need to trust
I said life is just...

What if the devil drove a ford
What if jesus lived next door...
