

# Everything's OK

Al Green

I wanna, I wanna come back home baby  
Out here baby, everything is wrong baby  
In a dog-eat-dog world  
Ain't nothing safe, baby  
You've got mine  
I've got yours  
Everything's ok

I started out poor baby  
Everybody knows you never told baby  
I got what it takes  
With my crazy ways  
You came along  
And started this song  
Everything's ok

Okay, okay, everything, everything is ok, baby  
Okay, okay, everything, everything is ok, baby  
You came along with your crazy ways  
You came along and started this  
Everything's ok

Okay, okay, everything, everything is ok, baby  
Okay, okay, everything, everything is ok, baby  
(repeat and fade)
