

# One Nite Stand

Al Green

Well, you've taken everything we've got  
Even the guitar and the band  
They were makin' the right moves  
Playin' in the blues like a light is at hand

Oh, get ready, ready for a one nite stand  
(Get ready for a one nite stand  
Get ready for a one nite stand)  
'Coz my baby loves a one nite stand  
So does all the fellows in the band, alright

Don't you wanna go  
Well, you've taken a right notion  
Enough to fill the world and the ocean

While we're driving in your car  
No one knows who you are  
Let me know who, big people in power

Oh, get ready, ready for a one nite stand  
(Get ready for a one nite stand  
Get ready for a one nite stand)  
'Coz my baby loves a one nite stand  
So does all the fellows in the band, alright

New York City, don't you wanna go, c'mon  
Yeah sure, climb on  
Don't you wanna go, c'mon
