Strong As Death (Sweet As Love)

Strong as death, sweet as love with the grace, of a dove Oh baby Let me in your life

We don't have that much time There's no need in us crying Hey baby I'm in the mood for love

If I could tell a story Of just how it was Before there was you and me Before there was love It was a sad affair

I got to go ahead with myself Before I find [?] Help me off the shelf Sweet baby

One more thing I got to say Strong as death, You're a power to be Sweet as love, To you and me Hey baby Take a chance on me

Strong as death, sweet as love

Hey let me just sing Strong as death, honey, sweet as love Strong as death, honey, sweet as love

Strong as love, sweet as love ah, you're playing to much music for me
