

# Take This Golden Ring from Me

Al Martino

A little bit of paradise, I'll give you every day  
You're an angel  
It's always like the first time, baby, oh when I say  
You're an angel  
I'll take the stars out of the sky for you  
I'll never tell a lie  
Nobody loves me like you do

Take this golden ring from me  
Save your little heart for me  
It's not too late my baby  
Take this golden ring from me  
From here to eternity  
There is no other lady  
Kiss me, kiss me baby  
Stronger every day  
We're born to be together  
I have to say

Anyone who has a heart will understand the game  
You're my angel  
I will always chasing rainbows bring the sun here again  
You're an angel  
Oh, you got the best of me  
Come on, baby, take the rest of me  
Nobody loves you like I do
