

# Wade Into The Water

Alabama 3

I wanna go deep down yeh  
I wanna go deep down yeh  
'Cause I remember

Met down by the river, the blue moon on the rise  
I broke down like Brando moved by your Marilyn Monroe eyes  
We were swimmin in silver, we were searchin for gold  
And we promised that night that we would never grow old

And you sang to me

Wade into the water with me, wash my body down  
Take me to the bottom baby, I won't make a sound  
Baptise me like a child, let salvation start  
'Cause if you take me to the bottom of the river baby  
I'll take you to the bottom of my heart

We got brighter than heaven, Lord yeh, we shone like the stars  
I got as , as drunk as Bogart, you were just smokin` like Bacall  
We were diggin` for diamonds, we were divin` for pearls  
Higher up than the satellites and out of this world

And you sang to me

Wade into the water with me, wash my body down  
Take me to the bottom baby, cos I won't make a sound  
Baptise me like a child, gotta let salvation start  
'Cause if you take me to the bottom of the river baby  
I'll take you to the bottom of my heart

Now the , the river is frozen, the blue moon is down  
My drink has run dry, Lord ya cigarettes gone out  
All the diamonds and the pearls, yeh all the silver and the gold  
They were all turned to dust, yeh it`s so cold

Singin` it

Wade into the water with me, wash my body down  
Take me to the bottom baby, cos I won't make a sound  
Baptise me like a child, gotta let salvation start  
'Cause if you take me to the bottom of the river baby  
I'll take you, I will take you there

So

Wade into the water with me, wash my body down  
Take me to the bottom baby, cos I won't make a sound  
Baptise me like a child, gotta let salvation start  
'Cause if you take me to the bottom of the river baby  
I'll take you to the bottom of my heart
