

Guess Who

Alabama Shakes

I can't tell you how I feel, but I do
Those things they say can't get to me, but they do
I don't see the sky as blue, as you do
Should I fantasize? There must be some way to love again

It's been so hard for a girl like me, it's true
People say I look just like my daddy, cause I do

All I really want is peace of mind

Why is everything so complicated?
Why is everyone so infatuated?
I gather myself safely
To a life [?]

Everybody's leaving all the time
All I really want is peace of mind
