

That Particular Time

Alanis Morissette

- C**
1. My foundation was rocked
F **Emi** **Dmi**
My tried and true way to deal was to vanish
C
My departures were old
F **Dmi** **G**
I stood in the room shaking in my boots
F **G** **C** **Dmi**
At that particular time love had challenged me to stay
F **G** **C** **Dmi**
At that particular moment I knew not to run away again
F **G** **C** **Dmi**
That particualr month I was ready to investigate with you
F **C**
At that particualr time
2. We thought a break would be good
For four months we sat and vacillated
We thought a small time apart
Would clear up the doubts that were abounding
At that particular time love encouraged me to wait
At that particualr moment it helped me to be patient
That particular month we needed time to marinate in what "us" meant
At that particular time
- Ami**
R: I've always wanted for you
F
What you've wanted for yourself
Ami **F**
And yet I wanted to save us high water or hell
Ami **F**
And I kept on ignoring the ambivalence you felt
G **F**
In the meantime I lost myself
G **F**
In the meantime I lost myself
G **F** **C**
I'm sorry I lost myself...I am
3. You knew you needed more time
Time spent alone with no distraction
You felt you needed to fly
Solo and high to define what you wanted
At that particualr time love encouraged me to leave
At that particular moment I knew staying with you meant desserting me
That particualr month was harder than you'd believe
F **C**
But I still left at that particualr time
