

without your love

Alaska Thunderfuck

Don't know if you're good if you're toxic
You're my cigarette and my oxygen
Get a head rush when we're locked in
Baby, when you leave I just lose my shit
Temptress with the chemicals here in my brain
Damaged like I'm Danity Kane
My space gets a little bit brighter when you're calling my name
But insane when you're miles away

It may seem extreme
I can't live without my sweet dependency
Baby

I can't breathe without your love
I'm not me without your love
I can't breathe without you, can't be without you
I can't breathe without your love
Heart won't beat without your love
You run deep within my blood
I can't breathe without you, can't be without you
Can't breathe without your love
Oh, oh, oh
I can't breathe without your love
Oh, oh
I can't breathe

Baby, why you gotta leave me breathless
Drop dead in my bed, body cold as stone
So wrong when you're gone and I'm lifeless
Brought back by the smell of your cologne

It may seem extreme
I can't live without my sweet dependency
Baby

I can't breathe without your love
I'm not me without your love
I can't breathe without you, can't be without you
I can't breathe without your love
Heart won't beat without your love
You run deep within my blood
I can't breathe without you, can't be without you
Can't breathe without your love
Oh, oh, oh
I can't breathe without your love
Oh, oh
I can't breathe

Oh, you bring me to life
Night after night
And I won't survive without your touch
So right and so real
I like how it feels with you
By my side

I can't breathe without your love
I'm not me without your love

I can't breathe without you, can't be without you
I can't breathe without your love
Heart won't beat without your love
You run deep within my blood
I can't breathe without you, can't be without you
Can't breathe without your love
Oh, oh, oh
I can't breathe without your love
Oh, oh, oh
I can't breathe

Oh, oh, oh
I can't breathe without your love
(Oh, you bring me to life)
Oh, oh
I can't breathe
