

# I Wanna Go Home

Alborosie

I wanna go home!  
go home!

The earth start shaking, the sky start falling, this is  
not a place for me  
Volcano erupting, the mountain collapsing, it's a  
calamity  
I need to go where the big diamonds shine  
Where I can slow down and clear up mi mind  
Oh Zion!  
Yes, I need to be myself -  
Close to my Motherland

I wanna go home!  
Oh Jah take me away  
All my people they are lost, dem so far away  
Go home!  
To my island in the sun  
4,000 miles away from babylon  
I wanna go home!  
I don't want to be elsewhere!  
Dem gone far away!  
Go home!  
To my island in the sun  
4,000 miles away from babylon

I saw so many places  
I met so many faces  
Still many more to see  
My book have many pages  
My life so many stages  
It's just my livity  
Babylon by bus man, mi caan stop  
I'm trodding the world right, round di map  
Mi tired but mi legs gonna keep mi right up  
Yes I Jah, I shall never give up!

I wanna go home!  
Oh Jah take me away  
All my people they are lost, dem so far away  
Go home!  
To my island in the sun  
4,000 miles away from babylon  
I wanna go home!  
I don't want to be elsewhere!  
Dem gone far away!  
Go home!  
To my island in the sun  
4,000 miles away from babylon
