

Grace of God

Alcatrazz

There but for the grace of God go I
There but for the grace of God go I

And as we walk these hallowed halls
The day we all went off to war
Save the world and fight for freedom
The tears were in our mother's eyes
They prayed that we'd come home alive
Not give out lives for their salvation

Show me the way to end this fight
So I need not give up my life

There but for the grace of God go I
Watch the cities burning
There but for the grace of God go I

And as we stand upon the shore
The waves are crashing loud and roar
Welcome to your nightmare
We see the burning holy cross
And all the brothers we have lost
No mercy for the damned today

Show us the way to end this fight
So I need not give up my life

There but for the grace of God go I
Watch the cities burning
There but for the grace of God go I

Show me the way to end this fight
So I need not give up my life

There but for the grace of God go I
Rise up, rise up
Once more the tongue of the liar
Will burn will burn
The eyes of the deceiver
Will lead us to the grave

Show me the way to end this fight
So I need not give up my life

There but for the grace of God go I
Watch the cities burning
There but for the grace of God go I
Scream out revolution
