

# I Am the King

Alcatrazz

Way after midnight getting late  
She lays with me in darkness  
Can't fight the need to copulate  
No power on earth could stop us  
She strikes a match to light a perfume flame  
There is the light we're golden  
I kiss her neck and take a bite  
She claws my back to hold on

While we're in this altered state  
She comes over never late  
She knows how to stimulate my action

Take me down, pull me in  
Shine the crown, tell me I'm the king  
Take me down, pull me in  
Lie to me, and tell me I'm the king

I push her shoulders to the sheets  
Throw back her head in passion  
We always win, there's no defeat  
Can't kill a proud erection  
Until I hear that primal scream  
That tells me I have won her  
This is the time to plant the seed  
The harvesting is over

While we're in this altered state  
She comes over never late  
She knows how to stimulate my action

Take me down, pull me in  
Shine the crown, tell me I'm the king  
Take me down, pull me in  
Lie to me, and tell me I'm the king

We seal the deal, a perfect bond  
No pulling back it's game on

While we're in this altered state  
She comes over never late  
She knows how to stimulate my action

Take me down, pull me in  
Shine the crown, tell me I'm the king  
Take me down, pull me in  
Lie to me, and tell me I'm the king

Take me down, pull me in  
Shake the crown, tell me I'm the king  
Take me down, pull me in  
Lie to me, and tell me I'm the king

Take me down, pull me in

Pull me in
